Our Violin Models

Violin

We prefer the outstanding violin models of Antonius Stradivarius and Guarnerius del Gesu.

Both of these instruments embody an almost perfect execution of all of the objective criteria that a first-rate violin must have. While the Stradivarius is known for the radiance of its timbre, the sound of the Guarneri is broader.

In the end, the selection will be based on personal preference.

Both models are known for the great volume of their sound and its resonance.
