

### New Pirastro Violin Strings Evah Pirazzi Neo

2025-06-27 16:44 by Haat-Hedlef Uilderks

### Evah Pirazzi Neo - sound power meets elegance

With the new Evah Pirazzi Neo, Pirastro has set another milestone in the development of modern synthetic strings: A significantly reduced background noise ensures greater clarity - without compromising on carrying capacity or expressiveness.

The strings impress with their effortless response, smooth tone connections and impressive sound projection. Their radiance remains present and brilliant even in large rooms.

Thanks to an innovative technical process, the Evah Pirazzi Neo strings offer exceptional tuning stability - and are ready for use immediately after winding. A special gold-plated E-string gives the entire set additional depth and brilliance, which raises the sound to a new level.

With a broad overtone spectrum and a rich foundation, the strings develop a powerful, clear sound - without changing the string tension. The playing feel remains pleasant and familiar.

Within the Evah-Pirazzi family, Pirastro offers three carefully matched sets of strings - for maximum flexibility to emphasise individual sound preferences and the characteristics of the instrument.
